

Electric Stainless Steel Meat Grinder

This electric meat grinder is constructed from durable stainless steel. It features a powerful motor and includes multiple grinding plates for different textures.

Product Overview

Professional Grade Meat Processing

This electric meat grinder is constructed of durable stainless steel, ensuring long-lasting performance and hygiene for both home and commercial environments. It features a powerful motor designed for efficient grinding of various types of meat. The unit is engineered for ease of use, featuring a large capacity feeding tray and multiple grinding plates to achieve different textures, while remaining simple to assemble and disassemble for thorough cleaning.

Technical Specifications

Material	Stainless Steel
Suitable For	Home Use, Commercial Use

Features

Key Features

- Powerful motor for efficient grinding
- Large capacity feeding tray
- Multiple grinding plates included
- Easy to assemble and disassemble
- Hygienic stainless steel construction

Maintenance

Easy Cleaning • Simple Assembly
