

Electric Stand Mixer with Detachable Hand Mixer

This electric stand mixer is designed for versatile kitchen use, featuring a detachable hand mixer unit. It includes a rotating bowl and multiple speed settings for precise mixing control.

Product Overview

Versatile Kitchen Mixing Solution

This electric stand mixer is designed for professional and home kitchen use, offering a flexible two-in-one configuration. It features a detachable hand mixer unit that allows for both hands-free stand operation and independent handheld use. With its rotating bowl system and precise speed control, it ensures consistent results for tasks ranging from whipping cream to mixing dense cake batter.
