

Electric Standing Fan with Telescopic Pole

This electric fan is designed with a circular fan head enclosed in a wire cage. It features three blades and a telescopic metal pole with a plastic base.

Product Overview

Efficient Cooling Solution

This electric standing fan is designed to provide reliable air circulation and cooling for household environments. Featuring a telescopic pole for adjustable height and a stable X-shaped base, it offers both flexibility and durability. The intuitive control panel with four buttons ensures ease of use for daily operation.
