

Electric Steam Iron for Clothes

This electric steam iron is designed to remove wrinkles from clothing. It is equipped with a temperature control, water reservoir, and non-stick soleplate.

Product Overview

Professional Fabric Care Solution

This electric steam iron is engineered for efficient wrinkle removal on a wide range of fabric types. Designed with a user-friendly temperature control dial and an integrated water reservoir, it offers versatility for both dry and steam ironing requirements. Its ergonomic swivel cord and non-stick soleplate ensure a smooth, effortless experience for professional or high-volume household use.
