

Electric Steam Iron for Garment Care

This electric steam iron is equipped with a non-stick soleplate and adjustable temperature settings. It also features a water tank for steam generation and a steam control lever.

Product Overview

Professional Garment Care

This electric steam iron is engineered for high-performance garment care, offering versatile voltage support for international markets. It features a durable soleplate design with a large 350ml capacity water tank for extended ironing sessions. Equipped with a suite of safety and maintenance features, it ensures efficient wrinkle removal while remaining easy to operate and clean.

Technical Specifications

Power Consumption

1600 W

Maximum Power

Operating Voltage

AC 220-240V, AC 100-127V

Frequency

60 Hz

Performance Features

Soleplate Material Options

- Teflon
- Stainless Steel
- Ceramic

Water Tank Capacity

350 ml

Smart Functions

Maintenance & Safety

Self-Clean • Anti-Calcium • Anti-Drip • Auto Shut-Off

Steam Capabilities

- Continuous Steam
- Spray Function
- Steam Burst
