

Electric Steam Iron for Garment Care

This electric steam iron is designed for pressing and smoothing clothes. It utilizes electrical energy to generate heat and features a water reservoir for steam generation, suitable for various fabric types.

Product Overview

Professional Garment Care

This high-efficiency electric steam iron is designed for precision garment care, offering a blend of ergonomic handling and effective heat transfer. Featuring a specialized non-stick soleplate and integrated steam vents, it ensures smooth gliding across various fabric types. The intuitive temperature control dial and built-in water reservoir provide the necessary versatility for both daily pressing and demanding ironing tasks.

Technical Specifications

Power Source	Electrical
Soleplate Material	Non-stick
Control Features	Temperature Control Dial, Steam Vents, Water Reservoir

Design & Ergonomics

Design Highlights

- Ergonomic handle for comfortable use
- White and blue color scheme
- Precision control for various fabric types
