

# Electric Steam Iron for Garment Care

This steam iron is equipped with a non-stick soleplate that ensures smooth gliding across different fabrics. Variable steam control and a spray function allow for effective wrinkle removal.

## Product Overview

### Professional Garment Care Solution

This high-efficiency electric steam iron is engineered for versatile garment care in professional and domestic settings. Featuring a robust 1200-1600W power output, it ensures rapid heating and powerful steam performance. The ergonomic design includes specialized soleplate options and intuitive controls to provide a smooth, reliable ironing experience for various fabric types.

## Technical Specifications

### Power Rating

**1600 W**  
Max Power

**1200 W**  
Min Power

Voltage Compatibility	AC220-240V, 100-127V
Operating Frequency	50/60Hz

## Design & Features

### Available Soleplates

- Teflon
- Stainless Steel (S/S)
- Ceramic

### Safety Features

Auto Shut Off • Pilot Light

### Ironing Functions

- Steam
- Spray
- Burst Steam

Water Tank Capacity	180 ml
