

Electric Steam Mop for Hard Floors

Electric steam mop designed for cleaning sealed hard floors. It features a 1500W power rating and an 800ml water tank capacity.

Product Overview

High-Efficiency Steam Cleaning

This electric steam mop delivers a powerful 1500W output designed specifically for deep cleaning sealed hard floors. With a rapid 20-second heating time and a generous 800ml tank, it ensures consistent operation for up to 30 minutes. Its ergonomic design includes a large rotary swivel head, making it ideal for navigating tight corners and low-clearance areas.

Performance Metrics

Rated Power

1500 W

Power Input

800 ml

Water Tank Capacity

Operational Efficiency

Metric	Specification
Heating Time	20 seconds
Continuous Runtime	30 minutes
Power Cord Length	5.0 meters

Control and Design

Control Features

Adjustable Steam Amount, Adjustable Temperature Control, Rotary Swivel Head

Maneuverability

Large rotary angle design allows for efficient cleaning of tight corners and under low-profile furniture.
