

Electric Step-Through Bicycle with Cargo Features

This electric bicycle has a step-through frame for easy access. It includes a front basket, front and rear lights, a rear rack with backrest, and an integrated battery pack.

Product Overview

Versatile Electric Step-Through Utility Bike

This electric step-through bicycle is designed for efficient urban commuting and light cargo transport. Featuring an accessible frame geometry for easy mounting, it integrates practical utility elements like a front basket and rear rack with a backrest. With built-in lighting and a stable kickstand, this bike offers a reliable solution for professional and personal mobility needs.
