

Electric Step-Through City Bicycle with Basket and Rack

This electric bicycle has a step-through frame for easy access and includes a front basket and rear rack for carrying items. It is equipped with an electric motor and battery system to provide assisted pedaling.

Overview

Versatile Urban Commuter

This electric step-through city bicycle is designed for convenient urban transportation, featuring an accessible frame geometry that allows for easy mounting and dismounting. Equipped with both a front basket and a rear rack, it provides ample storage capacity for daily errands or commuting needs. The integrated electric motor and battery system support both pedal-assisted riding and full electric propulsion, making it a reliable solution for city travel.
