

Electric Step-Through Motorcycle for Urban Transport

This electric motorcycle is a two-wheeled vehicle ideal for urban transportation. It features a step-through frame, comfortable seat, rear storage, and standard safety features.

Overview

Urban Mobility Solution

This electric step-through motorcycle is engineered specifically for efficient urban transportation. Its accessible frame design allows for effortless mounting and dismounting, while the integrated rear storage box enhances utility for daily commuting. Powered by a clean, quiet electric motor and battery system, it offers a sustainable alternative for navigating city environments.
