

Electric Step-Through Motorcycle with Storage

This electric motorcycle has a step-through frame, making it easy to mount and dismount. It is equipped with a rear storage compartment for added convenience.

Overview

Modern Urban Mobility

This electric step-through motorcycle combines practical urban design with modern aesthetics. Featuring a convenient step-through frame for effortless mounting, it is built for city commuting with integrated rear storage and enhanced safety features like front and rear lighting. The sleek black finish, accented by chrome protective bars and a premium seat with red stitching, offers a professional and stylish appearance for daily use.
