

Electric Step-Through Scooter

This electric scooter is designed with a step-through frame for easy mounting and dismounting. It is equipped with a headlight, side mirrors, and a rear tail light for safe urban transportation.

Overview

Urban Mobility Redefined

This electric step-through scooter is engineered for comfortable and reliable urban commuting. Featuring a powerful 500W hub motor and a robust hydraulic front fork, it offers a smooth ride with impressive climbing capability. With safety-focused features like dual braking systems and a digital burglar alarm, it provides a secure and efficient transport solution for daily travel.

Performance
