

Electric Step-Through Scooter

This electric scooter features a step-through frame and streamlined design. It is ideal for urban commuting.

Overview

Urban Commuter Electric Scooter

This electric step-through scooter is engineered for efficient urban mobility, combining a streamlined design with practical features for daily commuting. Its distinctive green and white aesthetic is paired with a comfortable silver seat and ergonomic black handlebars. The step-through frame design ensures easy mounting and dismounting, making it an ideal choice for navigating city environments with convenience and style.

Design & Ergonomics

Primary Application

Urban Commuting • City Transit
