

Electric Step-Through Scooter for Urban Commuting

This electric scooter is designed for urban commuting. It features a step-through frame, a comfortable seat, and a rear storage box.

Overview

Urban Commuting Solution

This modern electric scooter is specifically engineered for efficient urban commuting, featuring a convenient step-through frame design that ensures ease of access. Equipped with a comfortable seat and an integrated rear storage box, it balances practicality with daily utility. The vehicle is fully prepared for city traffic, incorporating essential safety features like headlights, taillights, and mirrors to provide a secure and eco-friendly transportation experience.
