

Electric Step-Through Scooter with Storage

This electric scooter has a sleek red and black design. It includes a step-through frame, front and rear lights, a comfortable seat, and a rear storage compartment.

Overview

Eco-Friendly Urban Mobility

This electric step-through scooter combines a sleek red and black design with practical features for daily commuting. Equipped with a battery-powered motor and pneumatic tires, it offers a smooth and sustainable transportation solution. The integrated rear storage compartment and comfortable seating make it an ideal choice for professional buyers seeking reliable urban utility vehicles.
