

# Electric Step-Through Scooter with Storage

This electric scooter has a blue and silver color scheme and a step-through frame. It features integrated storage behind the seat, lights, and turn signals.

## Overview

### Urban Mobility Solution

This electric step-through scooter is engineered for efficient urban transportation, combining comfort with utility. Featuring a distinctive blue and silver aesthetic, the design prioritizes ease of use with its step-through frame and integrated rear storage compartment. Equipped with essential safety features including headlights, turn signals, and mirrors, this model is built for street-legal operation.
