Product Overview

Efficient Residential Hot Water Solution

This electric storage water heater features a sophisticated digital temperature display and an adjustable thermostat for precise control. Designed for reliability and longevity, it incorporates an anti-scale heating element and a high-durability inner tank engineered to withstand high-pressure environments. With an IPX4 waterproof rating and versatile power settings, it provides a safe and consistent hot water supply for modern households.

Technical Specifications

Power Rating Options

- 500
- 1000
- 1500
- 2000
- 2500

Waterproof Degree

IPX4

Supported Voltage

220-240V, 110-120V

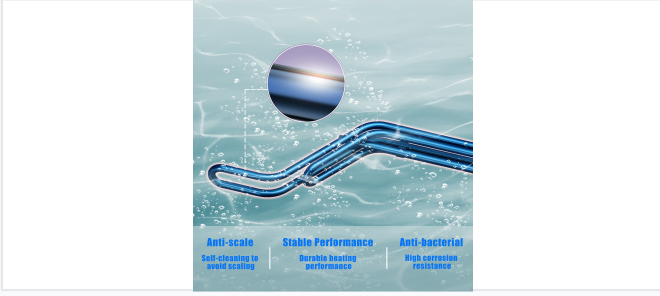

Rated Pressure

0.8 MPa

Temperature Range

Ambient to 75

Heating & Durability

Advanced self-cleaning heating element designed for high durability and hygiene.

The Blue Diamond Inner Tank utilizes a single weld line design to significantly enhance pressure resistance and minimize leakage risk.

Inner Tank Technology

67 %

Leakage Risk Reduction

Heating Element Benefits

Anti-scale, Anti-bacterial, Corrosion Resistant, Self-cleaning
