

Electric Tile Cutter

This portable electric tile cutter is designed for cutting ceramic tiles, porcelain tiles, marble, and granite. It features a diamond blade for precise and clean cuts, adjustable cutting depth, and a water cooling system to reduce dust and extend blade life.

Overview

Professional Electric Tile Cutter

This portable electric tile cutter is engineered for precision and efficiency in tiling projects. It features a high-performance diamond blade capable of cutting through ceramic, porcelain, marble, and granite with clean results. Equipped with an adjustable cutting depth and an integrated water cooling system, it minimizes dust output and significantly extends the service life of the blade, making it an essential tool for professional tilers.

Technical Specifications

Key Cutting Features

- Diamond blade for precision
- Adjustable cutting depth
- Integrated water cooling system

Performance Benefits

Dust Reduction • Extended Blade Life • Portable Design

Compatible Materials

Ceramic Tiles, Porcelain Tiles, Marble, Granite

Application

Intended Use

Professional and DIY tiling projects
