Product Overview

Professional Tire Service Solution

The PTD-1500L electric torque wrench is engineered specifically for high-performance tire maintenance and industrial fastening applications. Designed for reliability and precision, this tool provides a robust solution for tightening and loosening bolts on various vehicles and machinery. Its ergonomic design and high torque output ensure efficient operation, reducing user fatigue during demanding service tasks.

Technical Specifications

Torque Range

600 N.m

Min Torque

1500 N.m

Max Torque

Included Components

- Standard sleeve (32T)

Model Number: PTD-1500L

Max Power Consumption: 1100 W

Operating Voltage: 220V

Application

Primary Applications: Tire Service, Automotive Repair, Fleet Maintenance, Industrial Fastening
