Overview

High-Performance LiFePO4 Battery Charger

The C1200 series is a robust and efficient battery charging solution specifically engineered for LiFePO4 battery systems. Designed with a durable aluminium alloy shell, this charger provides reliable power management for a wide range of electric vehicles and equipment, including e-bikes, motorcycles, scooters, and golf carts. It features flexible input voltage compatibility and customizable plug options to meet diverse international requirements.

Electrical Specifications

Output Performance

73 V Output Voltage	15 A Output Current	1095 W Output Power
-------------------------------	-------------------------------	-------------------------------

Input Voltage Range 110-132VAC, 200-264VAC

Cells in Series 20S

Physical Characteristics

Dimensions 264 x 120 x 89 mm

Net Weight 2.1 KG

Shell Material Aluminium Alloy

Compatibility & Compliance

Supported Applications

- Electric Bike
- Motorcycle
- Scooter
- Cleaner
- Electric Vehicle
- Golf Cart

Certifications

CE

Warranty

12 Months

Customization

AC/DC plug types can be customized based on request
