

Electric Vehicle Lithium-Ion Battery Charger

71.4V 3A

This lithium-ion battery charger is designed for electric motorcycles and scooters. It provides a reliable and efficient charging solution for 71.4V battery packs with a 3A charging current.

Product Overview

High-Performance EV Charger

This versatile battery charger is engineered for electric motorcycles, scooters, and e-bikes, providing a reliable power solution for lithium-ion, LiFePO4, and lead-acid battery systems. With a robust aluminium alloy construction and a compact design, it ensures efficient charging performance while maintaining durability. The unit supports global compatibility with flexible input voltage ranges and customizable socket standards to meet regional requirements.

Technical Specifications

Output Performance

71.4 V

Output Voltage

3 A

Output Current

400 W

Output Power

Input Voltage Range	110-132VAC / 200-264VAC
Compatible Battery Types	Li-ion, LiFePO4, Lead Acid

Physical & Build

Dimensions	137 x 90 x 51 mm
Net Weight	1 kg
Housing Material	Aluminium Alloy

Compliance & Support

Certifications

CE

Typical Applications

- Electric Motorcycle
- Electric Scooter
- E-bike

Warranty

12 Months
