

Electric Water Heater with ABS Body

This electric water heater features a high impact resistant ABS body. It is available for under or above sink installation.

Product Overview

High-Efficiency Electric Water Heater

This electric water heater features a high-impact resistant ABS body and is designed for versatile installation either under or above the sink. It achieves top energy savings with a 5-star BEE standard, making it an economical choice for professional and residential environments. With multiple color options for the outer shell and service panel, it combines aesthetic flexibility with robust performance.

Technical Performance

Available Power Ratings

- 500W
- 1000W
- 1500W
- 2000W
- 2500W

Temperature Range

75

Max Temperature

Rated Voltage	220-240V~, 110-120V~
---------------	----------------------

Rated Pressure	0.8 MPa
----------------	---------

Tank Technology

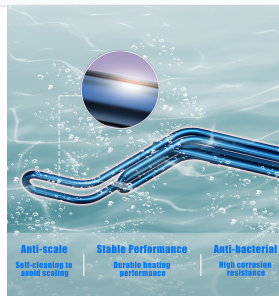

The Blue Diamond Inner Tank utilizes a single weld line design to reduce leakage risk by over 67% and is built with thickened SPCC material for high-pressure durability.

Inner Tank Specifications

Feature	Specification
Material	Customized thickened SPCC
Weld Design	Exclusive Single Weld Line
Leakage Risk Reduction	Over 67% compared to triple weld
Application	Suitable for high-rising buildings

Heating Element

High-performance heating element featuring anti-scale and anti-bacterial properties for extended service life and consistent heating efficiency.

Heating Element Benefits

Anti-scale, Anti-bacterial, Self-cleaning, High Corrosion Resistance, Stable Performance

Design & Safety

Waterproof Degree

IPX4

Core Features

- 5-star BEE energy saving standard
- High impact resistant ABS body
- Under or above sink installation
- H/R Light available
- Adjustable water temperature (Ambient to 75)
