

Electric Water Heater with Digital Display

This electric water heater is designed for bathroom use and features a digital display for easy temperature setting. Its compact design makes it suitable for small spaces while providing ample hot water.

Overview

Modern Efficient Water Heating

This electric water heater combines advanced energy-saving technology with a durable design, offering 20% less power consumption than 5-star BEE standards. Featuring a high-impact ABS body and a specialized enamel tank, it provides a reliable and long-lasting hot water solution for modern bathrooms. The unit is equipped with a digital display for precise temperature monitoring and offers flexible installation options for both under and above sink configurations.

Technical Specifications

Electrical Parameters

Parameter	Value
Rated Voltage	220-240V~ / 110-120V~
Rated Frequency	50/60Hz
Rated Power Options	500W, 1000W, 1500W, 2000W, 2500W
Waterproof Degree	IPX4

Tank & Construction

The exclusive single weld line design uses thickened SPCC material to reduce leakage risk by over 67% compared to triple weld designs.

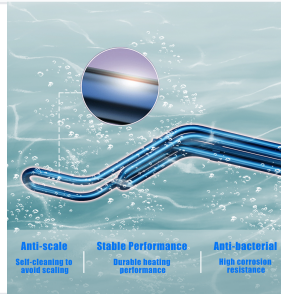

Blue Diamond Inner Tank

The inner tank is constructed from customized thickened SPCC material with a quadro-layer enamel coating. It features an exclusive single weld line design which reduces the weld length by 75% and the number of weld lines by two-thirds compared to traditional triple-weld tanks, resulting in a 67% reduction in leakage risk.

0.8 MPa

Heating Element

Durable heating element featuring anti-scale, anti-bacterial, and high corrosion resistance properties for long-lasting efficiency.

Heating Element Features

Anti-scale, Anti-bacterial, Self-cleaning, High Corrosion Resistance, Stable Performance

Features & Control

Advanced Features

- Digital display for Set and Actual temperatures
- Optional WIFI connectivity
- R/F control capability
- H/R Light indicator available
- Multiple color options for outer shell
- High impact resistant ABS body

Temperature Adjustment

Ambient to 75
