

Electric Water Kettle with Automatic Shut-Off

This electric kettle is designed for rapid water boiling. It features a durable construction with a stainless steel base, transparent water level indicator, ergonomic handle, secure lid, and automatic shut-off for safety.

Product Overview

Efficient Boiling Performance

This 1.7L electric kettle is engineered for rapid heating, utilizing a powerful 1850-2200W concealed stainless steel element. Designed with safety in mind, it features automatic shut-off and boil-dry protection, ensuring reliable operation in any kitchen environment. The heat-resistant plastic housing and 360-degree rotatable base offer both durability and ease of use for professional or home settings.
