Product Overview

Instant Aeration Technology

The Electric Wine Aerator Dispenser is a professional-grade device designed to enhance the flavor profile and aroma of wine instantly. By infusing wine with oxygen during the dispensing process, it softens tannins and releases complex flavors without the need for traditional 30-120 minute decanting. This portable, battery-operated unit offers a sleek, modern brushed metal finish, making it an ideal tool for wine enthusiasts seeking efficiency and quality.

Technical Specifications

Model Number	WA2000
Aeration Time	1 second
Power Source	Battery Powered
Bottle Compatibility	Standard wine bottles

Key Benefits

Key Benefits

- Eliminates wait time for decanting
- Softens tannins for smoother taste
- Reduces sulfide odors
- Separates precipitation
- Portable for on-the-go use

Design Features	Brushed Metal Finish, One-Touch Operation, Modern Design
