

Electric Wire Rope Hoist

This electric hoist is designed for lifting applications in industrial and construction settings. It can lift loads up to 250/500 kg, and it features a remote control and safety features, such as overload protection and an emergency stop.

Product Overview

High-Performance Electric Wire Rope Hoist

This electric wire rope hoist is designed for versatile lifting applications in industrial and construction environments. It features a robust 1150W motor and a durable steel cable system, offering reliable performance for loads up to 500kg. Equipped with essential safety features, including overload protection and emergency stop functionality, this unit ensures efficient and secure operation in workshops, garages, and on-site projects.
