

Electric Wire Rope Hoist

The electric wire rope hoist is a compact and powerful lifting device designed for various industrial and construction applications. It features a robust motor for reliable performance and a durable wire rope for safe and efficient lifting.

Product Overview

Compact and Powerful Lifting Solution

The electric wire rope hoist is a compact and powerful lifting device designed for versatile industrial and construction applications. Engineered for reliability, it features a robust motor and durable wire rope, making it ideal for workshops, warehouses, and construction sites. With integrated safety features like overload protection and an emergency stop function, it ensures safe and efficient load handling in confined spaces.

Technical Specifications

Typical Applications

- Workshops
- Warehouses
- Construction Sites

Model Identifier	PA500
Safety Features	Overload Protection, Emergency Stop, High-Quality Braking System
Operation	Remote Control
