

Electric Wire Rope Hoist

This electric hoist is designed for lifting in industrial and construction environments. It can lift loads up to 250kg with a double cable configuration and 125kg with a single cable.

Product Overview

Versatile Electric Wire Rope Hoist

This electric wire rope hoist is designed for reliable lifting applications in industrial and construction settings. It offers dual-mode operation, allowing for a 125kg capacity with a single line or up to 250kg with a double line configuration. Built for durability and ease of use, it features a robust motor and integrated safety mechanisms to ensure secure operation on the job site.
