

Electric Wire Rope Hoist 400/800kg Capacity

This electric hoist is designed for lifting in industrial and construction environments. It can lift up to 400kg with a single cable or 800kg with a double cable.

Overview

Electric Wire Rope Hoist

This electric wire rope hoist is a versatile lifting solution designed for industrial and construction applications. It features a dual-capacity system, allowing for 400kg lifting with a single line or 800kg with a double line configuration. Built for durability and efficiency, it includes a 1350W motor and robust safety features, making it an ideal choice for workshops, garages, and demanding job sites.
