Product Overview

Heavy-Duty Lifting Solution

This electric wire rope hoist is a specialized piece of equipment designed for demanding industrial and construction environments. Engineered for efficiency, it features a compact, lightweight design that ensures reliable performance in diverse settings such as shipbuilding, mining, and bridge construction. With advanced low-voltage control systems and high-temperature quenched gears, this hoist offers superior durability and enhanced safety for heavy-duty lifting operations.

Technical Specifications

Lifting Capacity

5000 kg
Capacity

Available Capacity Range

- 0.5 ton
- 2 ton
- 3 ton
- 5 ton
- up to 32 ton

Lifting Height Range

18 ft to 180 ft

Safety & Construction

Construction Details

- High-temperature quenched internal gears
- Enhanced wear resistance
- Durable wire rope design
- Compact and lightweight body

Safety Features

Low Voltage Control, Overload Protection, Emergency Stop

Applications

Suitable Industries

Construction • Shipbuilding • Metallurgy • Mining • Bridge Construction • Storage & Logistics
