Overview

Efficient Garden Waste Management

This electric chipper shredder is designed to quickly transform yard debris, such as brush, leaves, and branches, into nutrient-rich garden mulch. Powered by a robust 15A electric motor, it delivers consistent performance with speeds of up to 4,500 RPM. Engineered with user safety in mind, it includes a hopper locking knob and overload protection, making it a reliable solution for maintaining a tidy lawn.

Technical Specifications

Voltage	120V
Frequency	60 Hz
Current	15 A
