

Electric Wood Planer

This electric planer is designed for woodworking applications. It features adjustable depth settings for precise material removal and a high-speed motor for efficient planing.

Product Overview

Professional Electric Wood Planer

This electric wood planer is designed for efficient and precise material removal in woodworking applications. Featuring a powerful 650W motor and a high no-load speed of 14,500 r/min, it ensures smooth finishes on various wood surfaces. With an adjustable planning depth of up to 2mm and a standard 82mm planning width, this tool provides the versatility required for professional carpentry tasks.
