

Electric Wood Router

This electric router is designed for precision woodworking. It features adjustable depth settings and variable speed control for accuracy across different materials.

Overview

High-Performance Electric Wood Router

This electric wood router is engineered for precision and reliability in professional woodworking environments. Equipped with a powerful 1500W motor and variable speed control, it offers exceptional versatility for routing tasks across various materials. The robust design includes a sturdy base for stability and a spindle lock mechanism to facilitate quick and safe bit changes.

Technical Specifications

Rated Input Power

1500 W

Rated Input Power

No-Load Speed	6000-26000 min-1
Collet Diameter	12 mm

Logistics & Packaging

Weight Specifications

Type	Weight
Gross Weight	15.5
Net Weight	14

Packaging Details

- Units per package: 2 pcs
- Container Capacity (20'): 1200 pcs

Carton Dimensions	38 x 34 x 35 cm
