

Electrical Soldering Iron with UK Plug

This soldering iron is used to join metal components using solder. It features a ribbed handle for an improved grip and comes with a UK-style plug.

Product Overview

Professional Electric Soldering Iron

This all-purpose electric soldering iron is engineered for efficiency and safety in general electrical repair workshops. It features an ergonomic thermo-plastic handle designed to provide a comfortable, firm, and safe grip during extended use. With a variety of power options ranging from 30W to 300W, this tool is capable of handling diverse soldering tasks with precision and reliability.
