

Electricity Meter

This meter accurately measures electrical energy usage. It is suitable for residential, commercial, and industrial applications.

Product Overview

High-Precision Measurement Solution

This volumetric water meter provides accurate measurement of water flow for a variety of environments. Engineered with a robust blue and brass construction, it includes a protective lid to safeguard the meter face from damage. It is an ideal choice for residential, commercial, and industrial applications requiring reliable consumption monitoring.

Technical Specifications

Suitable Applications

- Residential
- Commercial
- Industrial

Design Features

Protective Lid • Flow Monitoring

Meter Type	Volumetric
Material	Brass, Durable Blue Finish
Model Identifier	041010150A
