

Electronic Cigarette Battery with Statue of Liberty Pattern

This electronic cigarette battery features a Statue of Liberty pattern with an antique color finish. The 650mAh battery is compatible with eGo Series atomizers and clearomizers and has adjustable voltage.

Product Overview

Vintage Style Performance Battery

This electronic cigarette battery features a distinct Statue of Liberty pattern with a vintage-inspired antique finish, offering a unique aesthetic for discerning users. Designed for compatibility with a wide range of clearomizers, it provides reliable power and superior vapor production. With multiple finish options and high-quality construction, it combines artistic design with essential functional performance.
