

Electronic Dehumidifier with Digital Display

This electronic dehumidifier removes between 20 and 30 liters of moisture per day. It features a LCD or LED display, two fan speeds, an automatic humidistat and automatic defrost control.

Product Overview

Professional Grade Moisture Control

This high-capacity electronic dehumidifier is engineered to effectively manage moisture levels in environments requiring 20 to 30 liters of extraction per day. It features a sophisticated digital interface, dual fan speeds, and intelligent automated controls for both humidity management and defrosting. With a user-friendly 6-liter removable tank and options for continuous external drainage, it is designed for maximum convenience and mobility in professional or residential spaces.

Technical Specifications

Dehumidification Capacity

30 L/D

Max Daily Extraction

45 Pint/D

Max Daily Extraction

Water Tank Volume

6 L

Features

Key Functional Features

- Digital LCD/LED Display
- Automatic Humidistat
- Automatic Defrost Control
- Two-speed fan control
- Threaded continuous drainage port
- Integrated carry handle
- Removable front water bucket
- Heavy-duty roller castors
