

Electronic Dehumidifier with Digital Display

This electronic dehumidifier removes between 20 and 30 liters of moisture per day. It features two fan speeds, an automatic humidistat, and automatic defrost control.

Overview

High-Efficiency Moisture Control

This electronic dehumidifier is engineered to maintain optimal indoor humidity levels, effectively preventing mold growth and enhancing air quality. Featuring a versatile 20-30L/D capacity, it is equipped with intelligent controls including an automatic humidistat and defrost functionality. Designed for convenience, the unit offers continuous drainage options and high mobility for seamless integration into various professional or residential environments.
