

Electronic Equipment Replacement Handle

This is a replacement handle for electronic equipment, such as an amplifier or speaker cabinet. It is made of black plastic or rubber and features mounting points for secure attachment.

Product Overview

Professional Equipment Handle

This durable replacement handle is engineered for electronic equipment, providing a reliable solution for amplifier or speaker cabinet transport. Constructed from high-quality, resilient materials, it features ergonomic design points for a comfortable grip and secure mounting. The handle is built to withstand rigorous use, making it an essential component for mobile sound equipment maintenance.

Physical Properties

Material Composition	Reinforced Plastic/Rubber
Color	Black

Compatibility & Usage

Compatible Applications	Audio Amplifiers, Speaker Cabinets, Electronic Chassis
-------------------------	--

Design Features

Grip Design	Ergonomic Contour
Mounting Type	Dual-point Secure Attachment
