

Electronic Insect Killer with UV Light

This electronic insect killer attracts and eliminates flying insects using UV light. It features a protective outer cage and a removable tray for easy cleaning.

Product Overview

Effective Insect Control Solution

The BO40A is a professional-grade electronic insect killer designed to attract and eliminate flying insects efficiently. It utilizes ultraviolet (UV) light to lure pests into a high-voltage grid, ensuring a clean and pest-free environment. Built for versatility, this device is suitable for both indoor and outdoor settings, making it an ideal choice for homes, patios, and commercial spaces.
