

Electronic Point Ignition Gun

This electronic point ignition gun is designed for lighting and ignition applications. It features a stainless steel nozzle and an ergonomic, fish-shaped handle.

Product Overview

Ergonomic Electronic Ignition Solution

This electronic point ignition gun is engineered for precision and ease of use in various lighting and ignition applications. Featuring a distinct ergonomic fish-shaped handle, the device ensures comfort during extended operation. Built with a durable stainless steel nozzle and an intuitive oval ignition button, it combines reliability with a user-friendly design.

Design & Aesthetics

Available Colors	Light Blue, Yellow, Turquoise
Handle Style	Ergonomic fish-shaped design

Technical Specifications

Nozzle Material	Stainless Steel
Ignition Control	Oval-shaped push button

Application

Primary Applications

- Lighting applications
- Ignition tasks
