Product Overview

High-Efficiency Electronic Rodent Control

This electronic rodent exterminator provides a humane and effective solution for eliminating mice and rats in residential and commercial environments. Utilizing high-voltage technology, the device delivers a quick, painless shock upon contact, eliminating the need for hazardous poisons or traditional snap traps. It is designed for versatile placement, making it suitable for kitchens, offices, hotels, and other indoor spaces.

Technical Specifications

High Voltage Output

6 KV

Min Voltage

9 KV

Max Voltage

Power Source

- 4 x C Batteries (Not included)
- 6V DC Adapter (Included)

Battery Efficiency

Up to 50 kills per set of batteries

Compliance & Safety

Certifications

CE, RoHS

Usage & Application

Recommended Environments

Dining Rooms • Kitchens • Bedrooms • Offices • Hotels • Indoor Use
