

Electronic Scale Powder and Grain Filling Machine

This electronic scale powder and grain filling machine is designed for precise dispensing and packaging of granular and powdered materials. Its stainless steel construction ensures durability and hygiene, making it suitable for food, pharmaceutical, and chemical industries.

Overview

Precision Filling Solution

The Electronic Scale Powder and Grain Filling Machine is a precision instrument designed for accurately dispensing and packaging granular and powdered materials. Constructed with durable stainless steel, it ensures hygiene and reliability, making it suitable for food, pharmaceutical, and chemical industries. The integrated electronic scale and intuitive control panel allow for consistent filling accuracy and easy adjustment of parameters to maximize throughput and minimize waste.

Performance Metrics

Filling Speed

15 bag/min

Max Speed

Filling Range	0.5 - 100g
Accuracy	0.1 - 0.2g

Technical Specifications

Hopper Dimensions	21cm (diameter) x 16cm (height)
Voltage Compatibility	220V/50HZ, 110V
Machine Weight	15 KG
