Product Overview

Precision Electroplated Diamond Cutting Solutions

These electroplated diamond cutting discs and blades are engineered for the efficient and precise cutting of hard materials, including stone, tile, ceramic, and glass. The advanced electroplating process creates a robust bond between the diamond grit and the steel core, ensuring consistent performance and extended tool life. Designed for both professional and DIY applications, these tools support both wet and dry cutting methods for maximum versatility.

Technical Specifications

Cutting Applications

Wet Cutting • Dry Cutting

Available Colors

- Blue
- Red
- Pink

Suitable Materials

Stone, Tile, Ceramic, Glass

Rim Design

Continuous Rim

Performance Metrics

Performance Highlights

1 High

Bond Strength

1 Chip-free
