

Electroplated Diamond Saw Blade

This diamond electroplated saw blade is designed for cutting hard and brittle materials. The steel core features a diamond abrasive coating applied through electroplating for efficient and precise cutting.

Product Overview

Professional Electroplated Diamond Saw Blade

This electroplated diamond saw blade is engineered for high-precision cutting of hard and brittle materials. Featuring a steel core with a specialized diamond abrasive coating, the blade ensures uniform distribution for consistent performance. Its continuous rim design minimizes chipping, making it an ideal choice for achieving smooth finishes on delicate surfaces.

Technical Specifications

Material Compatibility

- Marble
- Glass
- Ceramic
- Stone
- Composites

Rim Design

Continuous Rim

Cutting Method

Wet Cutting, Dry Cutting

Mounting

Standard Arbor Hole
