

Electroplated Grinding Wheel for Power Tools

This electroplated wheel is designed for use with electric tools. It features a durable electroplated coating for enhanced wear resistance and extended lifespan.

Product Overview

High-Performance Electroplated Grinding Wheel

This electroplated grinding wheel is precision-engineered for use with standard electric power tools. Featuring a durable electroplated coating, it is designed to offer enhanced wear resistance and an extended operational lifespan. It is a versatile solution suitable for a wide range of tasks, including grinding, polishing, and finishing, ensuring consistent and reliable performance in professional applications.

Technical Specifications

Key Features

- Electroplated coating for durability
- Enhanced wear resistance
- Extended operational lifespan
- Precision-engineered construction

Tool Compatibility

Electric Power Tools, Standard Accessories

Applications

Primary Applications

Grinding • Polishing • Finishing
