

Elevator Release Key Switch

This elevator release key switch provides secure access control for elevators. It features a key-operated mechanism for use in elevator control systems.

Product Overview

Professional Elevator Control Key Switch

The XDL16-11YF is a high-performance electrical key switch engineered specifically for reliable operation in elevator control systems. Featuring robust zinc alloy and anti-flame plastic construction, this switch is designed to withstand frequent mechanical and electrical cycles in demanding industrial environments. It provides secure, authorized access and precise signal control, meeting international safety and quality standards including CE and RoHS.

Electrical Ratings

Electrical Parameters

660 V

Max AC Voltage

400 V

Max DC Voltage

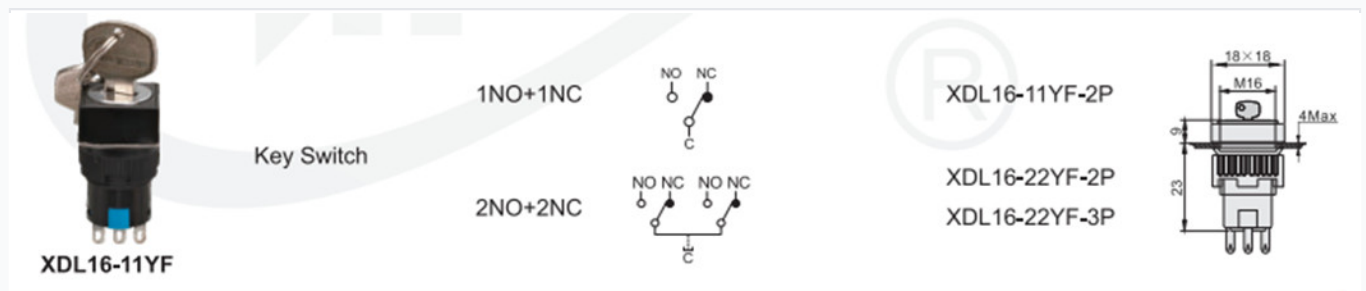

10 A

Heating Current

2.5 KV

Withstand Voltage

Physical Dimensions

Dimensions & Mounting

Feature	Specification
Mounting Hole	M16
Face Size	18x18mm
Above Panel Height	4mm
Total Height	23mm
