Product Overview

Revolutionary Roadside Safety

This emergency traffic triangle features innovative water-activated battery technology, eliminating the need for traditional charging or pre-stored energy. Designed for extreme visibility, it utilizes 45 bright LED lights to ensure you are seen from up to 300 meters away, even in adverse weather conditions like fog, rain, or snow. The unit is built for durability and ease of use, featuring an anti-skid base for stability on various road surfaces.
