

# Emergency Twin Tube Light

This emergency twin tube light provides reliable illumination during power outages or emergency situations. Featuring two fluorescent tubes encased in a durable, transparent housing, this light offers wide area coverage.

## Product Overview

### Reliable Emergency Illumination

The Emergency Twin Tube Light is a versatile lighting solution designed to provide reliable illumination during power outages or critical emergency situations. Featuring two 10W fluorescent tubes, the unit ensures wide-area coverage and can be easily wall-mounted or used as a portable light source. Equipped with a 6V4AH rechargeable battery and built-in protective circuitry, this device offers both durability and long-term operational safety for homes, offices, and industrial environments.

## Technical Specifications

Light Source	2 x 10W (14 inch) Fluorescent Tubes
Battery Type	6V 4AH Rechargeable Sealed Lead-Acid
Protection Features	Overdischarge Protection, Overcharge Protection

## Operational Details

### Status Indicators

- Green LED: Operate Indicator
- Red LED: Charge Indicator

### Operating Modes

Single Tube Operation • Two Tube Operation • Automatic Light-up
